Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (currently amended) Edible composition comprising at least 15 mg/kg of one or more coloured carotenoids and having a yellowness factor as defined in this specification of less than 4000, and have a yellowness index in the range of 1 to 90, the carotenoids being evenly distributed throughout the composition wherein the composition comprises at least 10 wt.% fat, wherein the carotenoids are present in one or more carotenoids encapsulates, wherein the cartonoids encapsulates have a coating of at least one protein layer.

2. (cancelled)

- 3. (currently amended) Edible composition according to claim $\frac{21}{2}$, wherein the composition comprises at least 18 mg/kg carotenoids.
- 4. (currently amended) Edible composition according to claim $\frac{21}{2}$, wherein the composition has yellowness index in the range of 1 to 75.
- 5. (previously presented) Edible composition according to claim 4, wherein the composition has a yellowness factor of less than 3333, and a yellowness index in the range of 1 to 65.

- 6. (original) Edible composition according to claim 5, wherein at least 20 mg/kg carotenoids are present, and wherein the composition has a yellowness factor of less than 2850, and a yellowness index in the range of 1-70.
- 7. (currently amended) Edible composition according to claim $\frac{21}{2}$, wherein at least 45 mg/kg carotenoids are present, and wherein the composition has a yellowness factor of less than 2000, and a yellowness index in the range of 1-90.
- 8. (currently amended) Edible composition according to claim $2\underline{1}$, wherein the composition is an edible emulsion.

9. (cancelled)

- 10. (currently amended) Edible composition according to claim $9\underline{1}$, wherein the carotenoids encapsulates are complex coacervates.
- 11. (original) Edible composition according to claim 10, wherein the complex coacervates comprise gelatin and Arabic gum.

12-13 (cancelled)

- 14. (currently amended) Edible composition according to claim $9\underline{1}$, wherein the edible composition is an edible emulsion.
- 15. (currently amended) Fat based food product comprising an edible composition according to claim 2comprising at least 15 mg/kg of one or more coloured carotenoids and having a yellowness factor as defined in this specification of less than 4000, and have a yellowness index in the range of 1 to 90, the carotenoids being evenly

distributed throughout the composition wherein the composition comprises at least 10 wt. % fat, wherein the food product is selected from the group of shortenings, cooking fats, butter, margarine and low fat margarine, where the food product comprises 15-25 mg/kg carotenoids selected from the group consisting of lutein, lycopene, alpha and beta carotene, or mixtures thereof, wherein the food product comprises 5-15 mg/kg of lutein, 1-8 mg/kg of lycopene, present as separate encapsulates or as encapsulates comprising both, and 3-8 mg/kg of a mixture of alpha and beta carotene in free form.

16-19 (cancelled)

- 20. (original) Encapsulates comprising carotenoids, characterised in that the carotenoids are encapsulated in complex coacervates of at least two polymers, and the encapsulates comprising 5-30 wt.% on particle weight, of titaniumdioxide.
- 21. (previously presented) The edible composition according to claim 5 wherein the composition has a yellowness factor of less than 2850.
- 22. (New) Edible composition comprising at least 15 mg/kg of one or more coloured carotenoids and having a yellowness factor as defined in this specification of less than 4000, and have a yellowness index in the range of 1 to 90, the carotenoids being evenly distributed throughout the composition wherein the composition comprises at least 10 wt.% fat, wherein the carotenoids are present in one or more carotenoids encapsulates, wherein the carotenoids encapsulates comprise at least 5-30 Wt. % T_iO_2 , based on the weight of the total carotenoids encapsulates.
